ready2close™

a whole new way to connect with your customers!

Imagine a secure, centralized place where your customers have immediate access to important updates on closing status. Where email fraud can't touch wiring instruction communication. Where documents are easily shared by all parties on the file. And, where non-notarized documents that don't require wet-ink can be eSigned. Now, imagine a way to consistently guarantee this experience to all of your customers. **This is ready2close by RamQuest.**

Create a branded, seamless closing experience when you add your logo and corporate colors to ready2close.

STATUS: CLEAR TO CLOSE

See it for yourself at RamQuest.com/ready2close

ready2close integrates seamlessly with all RamQuest title and escrow production solutions, including Horizon. Changes made in your file automatically sync to ready2close!

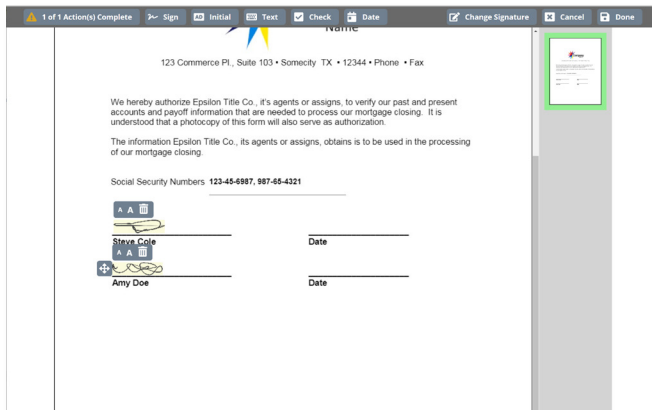

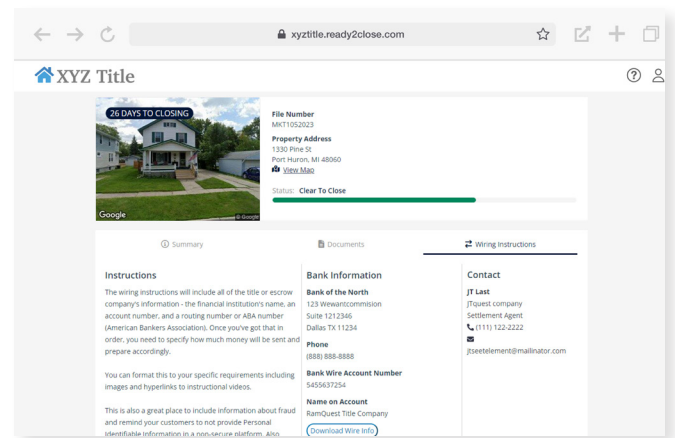

easy document management

Closing documents are easily and securely uploaded to ready2close by approved parties on the file. The documents seamlessly flow to your production solution; plus new documents and document changes made in your system seamlessly flow to ready2close, too!

secure wiring instructions

Eliminate email – and email fraud – from your wiring instruction communication. ready2close offers a secure location to publish wiring instructions for consumers and other related parties with a second layer of security using multi-factor authentication.

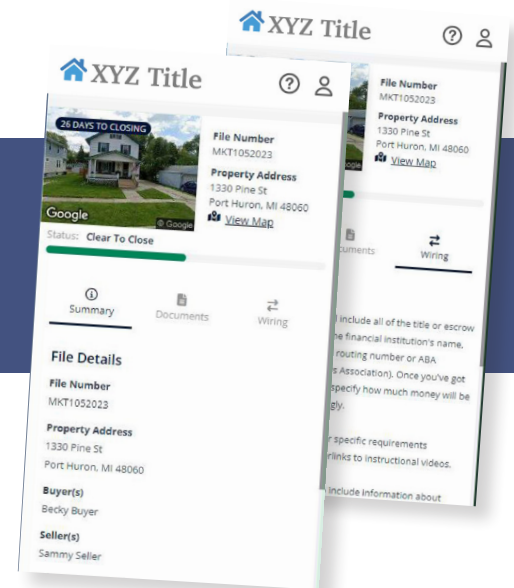

convenient eSigning

Offer customers maximum flexibility and convenience with the ability to review and sign any non-notarized documents that don't require a wet-ink signature using the ready2close secure eSigning capability.

And, ready2close offers a seamless mobile experience.

Since it's mobile-friendly, ready2close delivers all of the functionality, documents and important transaction details, on the go, to any mobile device or tablet.

Today's consumer demands convenient, secure, readily-available access to information. With ready2close, give customers timely visibility into their closing as you experience fewer phone calls and email inquiries. But even more importantly, increase customer satisfaction, referrals, and repeat business which increases revenue. **This is ready2close by RamQuest.**
