

Pavaso's RON

technology empowers you to complete signings remotely, through one secure, collaborative platform that streamlines the entire closing process.

Our remote online notarization solution

provides the ultimate convenience by allowing signers to be almost anywhere in the world to eSign closing documents, where they appear before the remote online notary to remote online notarize*, using two-way audio-video technology.

Benefits:

- Provides an optimized signing experience with consumer guided, signing workflows for individual(s) who are unable to attend in person
- Maintain full control to conduct the signing session with an option to have a state-certified notary join as a separate participant to complete the notarization tasks
- Signers and witnesses can join with ease and are guided through a clear, step-by-step check-in process, with a dashboard to show the conductor their progression as they complete each step
- Enhanced branding capabilities lets you extend your look and feel throughout the entire closing process
- Gives all permissible parties in the transaction online access to a video recording of the complete closing session or the eSigning and remote online notarization, in accordance with state law*

Signer identification verification safeguards include:

- Security measures incorporating industry best practices, including multifactor authentication and stringent-yet-simple user procedures
- Knowledge-based identification questions specific to signer's personal history, maintaining individual integrity for similarly named signers
- Secure ID validation using image capture with automated authentication of government-issued photo ID
- Complies with evolving individual state statutory law requirements
